

Save for Later for Magento 2

1. Overview

The **Save for Later** module for Magento 2 allows customers to move items from their shopping cart to a separate “Save for Later” list. This helps users manage their shopping experience more efficiently by postponing purchases without losing product selections.

The module enhances user engagement, reduces cart abandonment, and improves overall customer convenience by enabling easy item restoration back to the cart.

2. Features

- Move items from cart to “Save for Later” list
 - Restore saved items back to the cart anytime
 - Remove items from the saved list
 - Customer-specific saved items
 - Seamless integration with Magento customer account
 - Lightweight and easy-to-use interface
 - Supports multiple products in saved list
 - Compatible with the Magento default cart workflow.
-

3. SYSTEM REQUIREMENTS

- Magento Open Source/Commerce 2.4.x
 - PHP 8.1 or higher (as per Magento version compatibility)
 - Magebytesoft_Base module installed and enabled
 - Composer 2.x (for recommended installation)
-

4. Where Save for Later Appears

The Save for Later functionality is available in the following areas:

- **Shopping Cart Page**
 - “Save for Later” button displayed for each cart item
 - **Customer Account Section**
 - Dedicated tab or section for viewing saved items
-

5. INSTALLATION

5.1 Composer Installation (Recommended)

Run the following commands:

```
composer require magebytesoft/module-saveforlater
php bin/magento module:enable Magebytesoft_SaveForLater
php bin/magento setup:upgrade
php bin/magento setup:di:compile
php bin/magento setup:static-content:deploy
php bin/magento cache:flush
```

5.2 Manual Installation

- 1. Download the module package
- 2. Extract files to:

```
app/code/Magebytesoft/SaveForLater
```

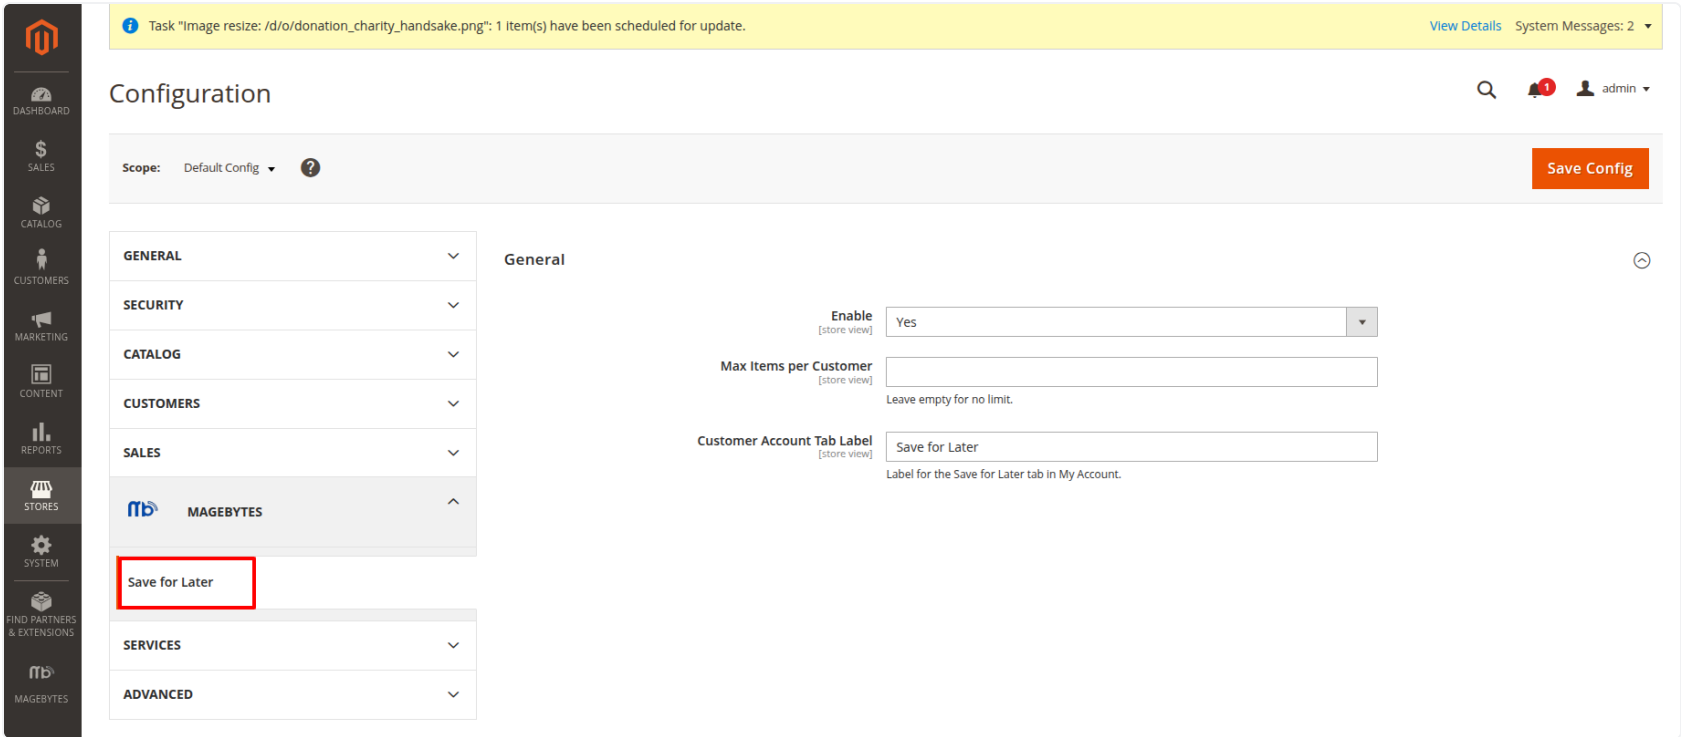

- 1. Run the following commands:

```
php bin/magento module:enable Magebytesoft_SaveForLater
php bin/magento setup:upgrade
php bin/magento cache:flush
```

6. Admin Configuration

Path 1

```
Stores → Configuration → Magebytes → Save for Later
```

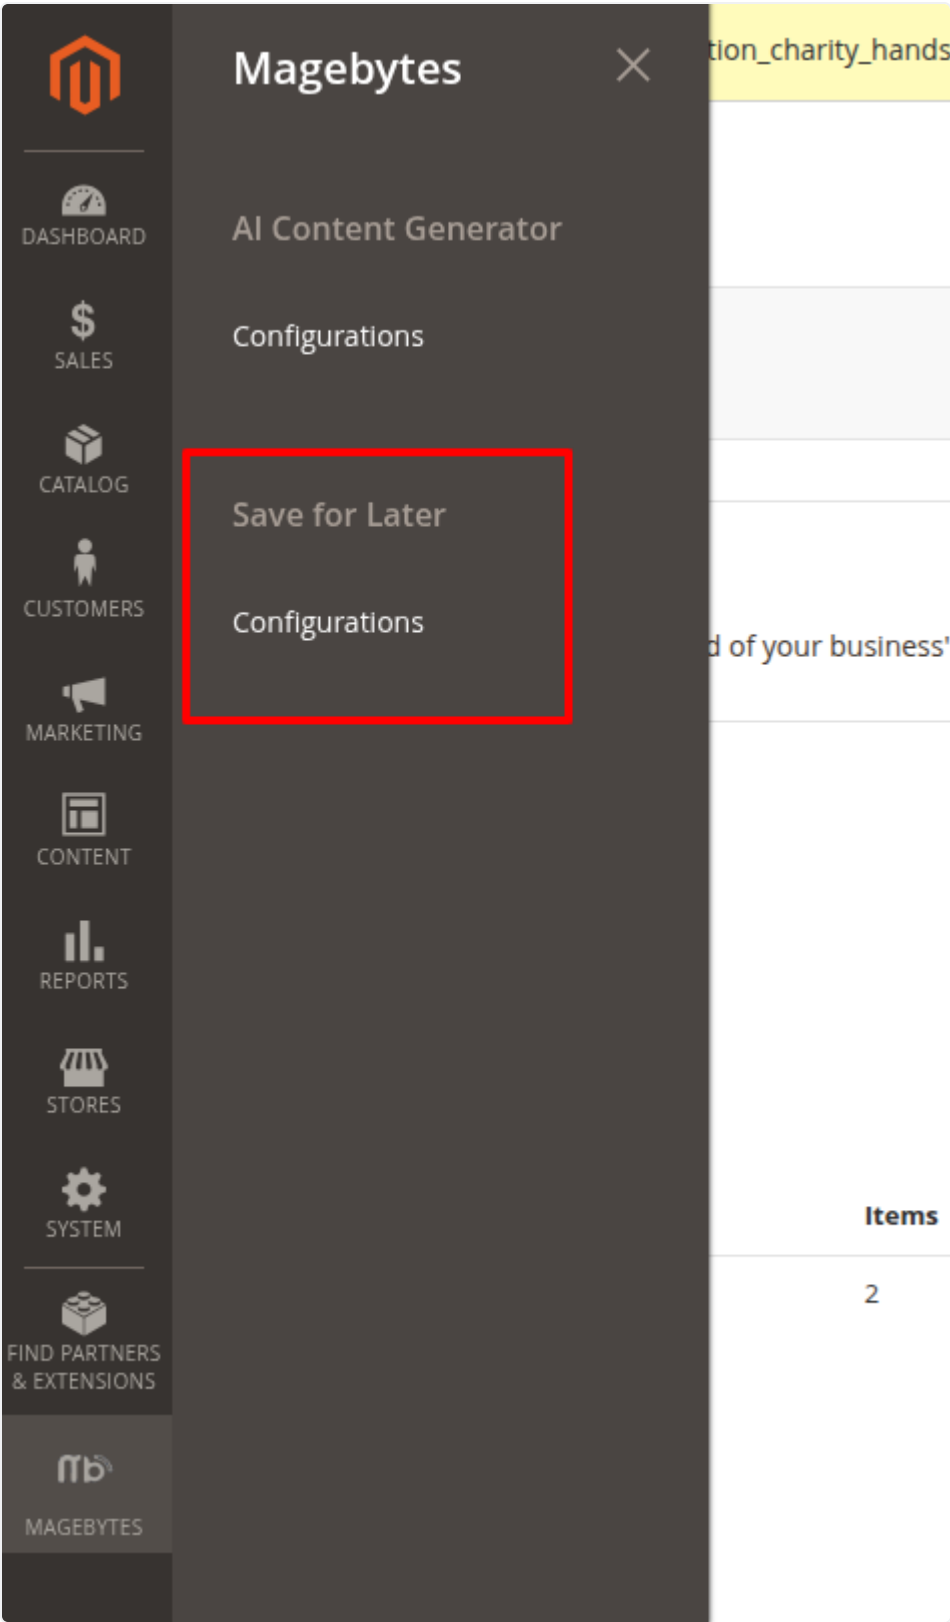

Available settings include

- Enable/Disable module

- Max Items per Customer
- Customer Account Tab Label

Path 2

Magebytes → Save for Later → Configuration

7. HOW TO USE

For Customers:

1. Go to the **Shopping Cart**
2. Click on **“Save for Later”** for any item
3. The item will be moved to the saved-for-later list
4. Access saved items from:
 - Cart page (below cart items)
 - Customer account section

 Nike shoes	\$1,000.00	1	In stock	Move to Cart

8. SECURITY AND PERFORMANCE

- Uses Magento's customer session to ensure data isolation
- No sensitive data stored outside Magento standards
- Supports Magento Full Page Cache (FPC) compatibility
- Blocks with dynamic content should use

9. COMPATIBILITY

- Magento Open Source 2.4.x
- Magento Commerce (Adobe Commerce)
- Works with default checkout and cart modules

10. Benefits

- Reduces cart abandonment
- Improves customer experience
- Encourages future purchases
- Helps users organize shopping decisions
- Increases conversion opportunities
- Provides a wishlist-like feature directly in cart

Conclusion

The Save for Later module is a powerful enhancement to the Magento shopping experience. It provides flexibility to customers while helping store owners retain potential sales and improve user satisfaction.
